Dear Ms. Jardin:

Thank you for writing me to enquire about Yukon's regulation of electronic cigarettes.

At this time, Yukon does not regulate the sale or use of electronic cigarettes. While that is the case now, Yukon is looking at other jurisdictions across the country to assess their responses to the regulation of Electronic Cigarettes. To date, however, their use is permitted as is their sale throughout Yukon.

If you have any further questions please do not hesitate to contact me at Mike.Nixon@gov.yk.ca.

Best regards,
